

## Spring 2015 Chemical & Biomedical Engineering Seminar Series

Time and Date: Fridays, 2:00 to 3:30 pm

Location: ENB 109 (with COE Eminent Lecture in TBD locations)

Date	Speaker	Affiliation	Research Area(s)
January 9	Vinay Gupta	USF	Interfacial phenomena, organic – inorganic composites
January 16	Xiaolan Tang and Chita Yang	USF	Vision systems (XT) & computational catalysis (CY)
January 23	COE Eminent Lecture Nick Abbott	University of Wisconsin, Madison	Interfacial phenomena and complex fluids
January 30	Paul Hintze	NASA Kennedy Space Center	Resource reutilization
February 6	COE Eminent Lecture Joan F. Brennecke	University of Notre Dame	Ionic liquids
February 13	No seminar (EXPO)		
February 20	David Sholl	Georgia Tech	Computational catalysis
February 27	John Vetelino	University of Maine	Microsensors, micro-acoustics, and solid state
March 6	No seminar (BREAK)		
March 13	COE Eminent Lecture Peter Siegel	Cal Tech	Terahertz sensor and source devices
March 20	James Henderson	Syracuse	Biomechanics, mechanobiology, and tissue engineering.
March 27	Berrin Tansel	FIU	Water treatment, waste management, landfill processes
April 3	Denis Karaiskaj	USF	Condensed matter/materials physics optical and laser spectroscopy
April 10	Debra Auguste	City College of New York	Bioresponsive drug delivery and tissue engineering
April 17	Yolanda Daza and Jon Pickering	USF	CO <sub>2</sub> conversion (YD) and photocatalysis (JP)
April 24	No seminar (CAPSTONE)
