

Research Positions (Spring 2013 and beyond)

• Post-Doctoral Research Scholar

The applicants should have research interests/expertise in at least one of the following areas:

VLSI design (i.e. microchip design)

System on a chip

Analog and digital circuits, models, and simulation.

Interested individuals should email a one-page vita, clearly indicating which of the above three areas they have expertise in and other academic/research strengths, to jain@usf.edu and wiley@usf.edu. The formal application should be submitted through the web site <https://employment.usf.edu>.

Salary range: \$40,000 to \$60,000.

• 3 Graduate Research Assistantships

(PhD. or M.S. degree seeking in Electrical Engineering)

Areas of interest are VLSI design (i.e., microchip design), System on a chip, and Analog and digital circuits, models, and simulation. Individuals with expertise/research interests in **one or more** of these three areas are encouraged to apply: provide a one-page vita, listing graduate courses taken and/or planned, areas of interests, and other academic/research strengths. Graduate courses are offered in all of the above areas. Email to jain@usf.edu and wiley@usf.edu or visit ENB 372.

Deadline to apply: All of the above **OPEN UNTIL FILLED**
