- Course Description:** Interdisciplinary seminar series through which students are exposed to a variety of environmental topics, through research and practice presentations by scholars and practitioners, with interactive discussion.
- Instructor:** Amy Stuart, Ph.D., COPH 1117, astuart@hsc.usf.edu, 974-6632.
Student Office Hours: M 4:30 - 5:30 pm (drop-in), W 3:00-4:00 pm (drop-in)
- Meetings:** Wednesdays, 4:10 – 5:15 pm. FAH 101.
See attached schedule of ERIC speakers (tentative).
Non-speaker class discussions are planned for Aug 24, Oct. 12, and Nov 30.
- Objectives:**
1. To provide exposure to a variety of environmental research topics and methods.
 2. To excite students to the potential of a career in environmental research.
 3. To provide experience with facilitating a seminar.
- Assessments:**
1. Seminar reporting forms summarizing and discussing each presentation or discussion (see attached). These are ***due before class begins, the week after each lecture.*** Attendance at least 13 class sessions is required. You may substitute up to 3 ERIC sessions with attendance at any other seminar sponsored by USF related to environmental research. Seminars used must be at least 40 minutes in length. Also, you must not be receiving course credit for the seminar through a different mechanism. (i.e. attendance of a seminar/lecture cannot count for two courses at once.)
 2. Session facilitation assignment. Each enrolled graduate student will be assigned to a team in charge of facilitating one seminar session. For speaker sessions, this will include (i) communicating with the speaker(s) before their session, (ii) creating a speaker announcement, and (iii) introducing the speaker(s). For the discussion sessions, this will include (i) preparing a list of discussion questions, and (ii) facilitating the in-class discussion.
 3. Synopsis of a scientific journal manuscript. A 1-page (400 – 500 words) written synopsis of a manuscript that relates to a talk attended is ***due by Friday, Dec. 2 at 5 pm.*** Follow these guidelines:
 - For one of the talks you attend, further investigate the topic area by locating and reading a related research publication (peer-reviewed journal paper).
 - Your synopsis should include the following: title, authorship, and source of publication; date and title of talk it relates to; discussion of the relationship of publication to talk; motivation for the work described in the publication; methodology used to conduct the work; major findings reported; and implications of the findings.
 - The synopsis should be written using coherent paragraphs, complete sentences, and a clear organizational structure.
 - Attach a copy of the abstract and summary pages of the article to your synopsis.
- Grading:** Offered Satisfactory/Unsatisfactory only. 1 unit. All assessments must be completed for a Satisfactory grade.
