

The 12 Methods of Numerical Methods Anonymous

Anonymous

1. We admitted we were powerless over methods - that our numbers had become unmanageable.
2. Came to believe that a Numerical Methods Man greater than ourselves could restore us to solution.
3. Made a decision to turn our will and our lives over to the care of Kaw *as we understood Him*.
4. Made a searching and fearless numerical inventory of our methods.
5. Admitted to Kaw, to ourselves, and to another human being the exact nature of our methods.
6. Were entirely ready to have Kaw remove all these errors of method.
7. Humbly asked Him to remove our truncation error.
8. Made a list of all errors we had truncated, and became willing to make amends to them all.
9. Made direct amends to such errors wherever possible, except when to do so would cause more error.
10. Continued to take numerical inventory and when we found error, promptly converged it.
11. Sought through convergence and endless quizzes to improve our conscious contact with Kaw, *as we understood Him*, converging only for knowledge of His will for us and the method to carry that out.
12. Having had a numerical awakening as the result of these Methods; we tried to carry this method to tests, and to practice these methods in all our affairs.
