## RESEARCH INTERESTS

My primary research interests are in designing devices that interact with humans, particularly doctors and physical therapists, haptics, rehabilitation, and engineering education. I strive to develop robots that follow implicit human interactions instead of requiring users to adapt to the apparatus and am also researching how the perception of a robot and surrounding environment affects the performance of an individual.

## EDUCATION

**Northwestern University**, Evanston, Illinois

Ph.D. in Mechanical Engineering

**June, 2007**

- Thesis: *Understanding the Haptic Interactions of Working Together* (Advisor: Michael A. Peshkin)

**Northwestern University**, Evanston, Illinois

M.S. in Mechanical Engineering

**December, 2004**

- Thesis: *Specialization in Dyadic Shared Manual Tasks*

**University of Tennessee**, Knoxville, Tennessee

B.S. in Mechanical Engineering

**May, 2001**

- Minors in Material Science and Engineering Communications

## RESEARCH EXPERIENCE

**University of South Florida**

- Associate Professor, Department of Mechanical Engineering
- Assistant Professor, Department of Mechanical Engineering

**Aug, 2016 – present**

**Aug, 2009 – Aug, 2016**

**Johns Hopkins University**, Post-Doctoral Fellow

**Sep, 2007 – July, 2009**

- Mentored by Allison M. Okamura and Noah J. Cowan
- Contributed to the design of a steerable needle with image based feedback for medical interventions.
- Formulated control algorithms to compensate for torsional friction in the steerable needle.
- Integrated stochastic models of the steerable needle with planning and control algorithms.
- Conceived and designed a portable mechanism to correct irregular walking patterns in patients with cerebellar damage.

**Northwestern University**, Graduate Research Assistant

**2002 – 2007**

- Designed and built an experimental testbed for studying human-human and human-robot physical interaction. Conceived and performed psychophysical experiments.
- Discovered an unsuspected latent capacity for haptic communication between partners. Dyads developed a new emergent strategy to divide the task while improving task performance.
- Modeled and implemented the human interaction in a robotic partner that surreptitiously took the place of one participant.
- Programmed the graphics, control algorithms, data acquisition, and servo control in C on QNX.

**Los Alamos National Lab** – Mechanical Engineer Intern

**Summers of 2000 & 2001**

- Used finite element and probabilistic analysis to determine the strength of explosion confinement vessels. Identified critical stress point that would categorically change the strength of the vessel.

**Los Alamos National Lab** – Computer Programmer Intern

**Summers of 1998 & 1999**

- Designed and wrote data analysis software for a missile explosion simulation.

## INSTRUCTION AND COURSE DEVELOPMENT

### **Advanced Engineering Mathematics II**, University of South Florida **2011, 2013, 2016, 2018**

- Taught the class with the following topics: Matrices, System of linear differential equations, Vector calculus, Functions of a complex variable, and Integration in a complex plane.

### **Haptics**, University of South Florida **2010, 2011, 2012, 2013, 2014, 2015, 2017, 2018**

- Developed and introduced this course on Haptics that includes concepts of human-robot interaction that incorporates programming (C++), projects, journal readings, presentations, research methods, human subject experimentation, and ethics.
- Five publications (one journal) have resulted from the student projects in this class.

### **Mechanical Controls**, University of South Florida **2009, 2010, 2011, 2012, 2014, 2015, 2016, 2017, 2018**

- Taught the class with the following topics: transfer functions, block diagrams, characteristic equation, modeling of dynamic systems, Laplace transforms, time response of first and second order systems, stability, frequency response, Bode plots, and an introduction to state space models.
- Implemented a new grading method incorporating confidence into the scoring.

### **Electronics and Instrumentation**, Johns Hopkins University **2009**

- Co-taught the class introducing circuits and electrical analysis to mechanical engineering students.

### **Engineering Analysis III, Guest Lecturer**, Northwestern University **2006, 2007**

- Taught five of the lectures related to dynamics to Freshmen engineering students.

### **Strain Gauge Workshop**, Northwestern University **2004**

- Formulated and taught a workshop on installing and instrumenting devices with strain gauges. Instructed graduate students and faculty in the Mechanical and Biomedical Engineering departments.

### **English Teacher**, Shenzhen, China **2001 – 2002**

- Designed and taught a two month course on engineering English to workers at Foxconn, an electronics manufacturing company.
- Created and taught English as a second language classes to high school and middle school students.

### **Teaching Assistant for Freshman Engineering**, University of Tennessee **1999 – 2001**

- Managed design teams, taught labs, and conducted help sessions for the integrated Freshman Engineering curriculum. Helped create a video of the program for advertising.

## HONORS AND AWARDS

**Fulbright Scholar** awarded to spend 10 months at Hong Kong Polytechnic University **2019**

Elected to **Senior Member of the National Academy of Inventors (NAI)** **2019**

One of 66 academic inventors from across the nation in this inaugural honor ([link](#)).

Elected to <b>Senior Member of the Institute of Electrical and Electronics Engineers (IEEE) 2019 Outstanding Junior Research Achievement Award</b> , University of South Florida	<b>2015</b>
<b>Excellence in Innovation Award</b> , University of South Florida	<b>2015</b>
Invited attendee to the 7th Annual <b>Frontiers of Engineering Education Symposium</b> Hosted by the National Academy of Engineering	<b>2015</b>
<b>Meritorious Service</b> , awarded by <b>IEEE Transactions on Haptics</b>	<b>2012</b>
<b>da Vinci award for NÜberwalker</b> , by <b>National Multiple Sclerosis Society</b>	<b>2006</b>
<b>Graduate Research Fellowship</b> awarded the <b>National Science Foundation (NSF)</b>	<b>2001</b>
<b>Tau Beta Pi Engineering Honor Society induction</b>	<b>1999</b>
<b>Pi Tau Sigma Mechanical Engineering Society induction</b>	<b>1999</b>
<b>Finner Family Scholarship</b> awarded twice.	<b>1998 and 1999</b>

### INVITED PRESENTATIONS

- “Asymmetries in Symmetric Human Motions and Rehabilitation” at the Johns Hopkins University in April, 2018.
- “Innovations in Assistive & Rehabilitation Robotics Technologies” Invited Exhibit Hall presentation at the International Mechanical Engineering Congress & Expositions (IMECE2017) in November, 2017.
- “Attainable Symmetries in Asymmetrically-Impaired Individuals” at the Engineering in Medicine and Biology Society Minisymposium on “Restoring Human Performance through Physical and Robotic Augmentation”, Orlando, FL, 2016.
- “A Haptic Touch of Rehabilitation” at the Tau Beta Pi District 5 Conference in Tampa, FL, 2016.
- “Using Symmetric Abilities for Rehabilitation and Training” at the University of Hong Kong in August, 2015.
- “Symmetry in Asymmetrically Impaired Individuals” at the Hong Kong Polytechnic University in August, 2015.
- “A Haptic Touch of Rehabilitation” at Pint of Science, Tampa in May, 2015.
- “Optimizing gait in an asymmetrically impaired person” at the University of Texas, Austin in October, 2014.
- Guest lecturer in Movement Science 2 (PHT 6178) at USF School of Physical Therapy & Rehabilitation Sciences on “Haptics for Physical Therapists”, March, 2012 & March, 2013 & September 2013.
- “Interacting with human-centered rehabilitation devices” at Florida Institute for Human and Machine Cognition (IHMC), 2011.
- “Home-based Rehabilitation” at the Emergency Management & Robotics for Hazardous Environments conference, 2011.
- Workshop on Haptic Human-Robot Interaction at Int. Conf. on Intelligent Robots and Systems (IROS), to occur in October, 2009.
- Computational Neuroscience Laboratory, Advanced Telecommunications Research (ATR) Institute International, Kyoto, Japan, May, 2009.
- Workshop on Innovation of Medical Robotics at IEEE Int. Conf. on Robotics and Automation (ICRA), May, 2009.
- School of Engineering and Textiles, Philadelphia University, Philadelphia University, PA, March, 2009.
- Winter School Mini-Symposium on Medical Robotics and Computer-Integrated Interventional Medicine, Johns Hopkins University, Baltimore, Maryland, January, 2009.

- Mechanical Engineering Department, University of South Florida, Tampa, FL, January, 2009.
- Institute of Automatic Control Engineering, Technical University of Munich, Germany, December, 2008.
- Mechanical and Aerospace Department, Nanyang Technological University, Singapore, April, 2008.
- Laboratory for Computational Sensing and Robotics, Johns Hopkins University, Baltimore, MD, February, 2007.
- Mechanical Engineering Department, Union College, Schenectady, NY, February, 2007.

## PROFESSIONAL ACTIVITIES

Scientific Advisory Member for Moterum Technologies, Inc., 2017-present

Associate Editor for IEEE Transactions on Haptics, 2017-present.

Executive Committee member for the USF Chapter of the National Academy of Inventors, 2016-present.

Secretary of the USF Chapter of the National Academy of Inventors, 2017.

President of the USF Chapter of the National Academy of Inventors, 2018.

Organizing Committee member (Finance Chair) for Haptics Symposium, 2018.

Organizer for the 2016 Engineering in Medicine and Biology Society (EMBC) Minisymposium: “Restoring Human Performance through Physical and Robotic Augmentation”.

Program Committee member for the Haptics Symposium, 2016.

Organizing Committee member (in charge of Student Volunteers) for World Haptics, 2015.

Advisor for the USF Graduate Certificate in Robotics program, 2013-present.

Associate Editor for IROS (IEEE/RSJ International Conference on Intelligent Robots and Systems), 2013.

Session Chair of Medical, Rehabilitative, and Assistive Robotics session at the Emergency Management & Robotics for Hazardous Environments conference (EPRRS), 2011.

Advisor for the USF Robotics Interest Group, 2010-present.

Associated Editor for IROS (International Conference on Intelligent Robots and Systems) Invited Session: “Human-Robot-Human Interaction for Rehabilitation”, 2010.

Session co-Chair at International Conference on Robotics and Automation (ICRA), 2010.

Senior Member of the Institute of Electrical and Electronics Engineers (IEEE).

Senior Member of the National Academy of Inventors (NAI).

Member of the American Society of Mechanical Engineers (ASME).

Member of the American Society of Engineering Education (ASEE).

## COMMUNITY SERVICE

Demos to high school students in the pre-college Biomedical Engineering Program, 2014, 2015, 2016, & 2018.  
 Lab tour to about 30 Girl Scouts in the Minds for Design camp, 2011, 2013, 2014, 2015, & 2017.  
 Judge for the Research Experience for Undergraduates (REU) Symposium, 2010, 2011, 2015.  
 Lab tour to 7-13 year-olds participating in the Allen Temple Neighborhood Development Corporation summer camp for economically disadvantaged children, July 2014.  
 Lab tour to Chiles Elementary School, May 8, 2012.  
 Help setup and give a lab tour to 60 5th graders from Robles Elementary School, April 2011.  
 Haptics demonstrations to two classes of 5th graders at Robles Elementary School, April 2011.  
 Lab tour to high school students from Plant High School, July 2010.  
 Judge for the College of Engineering Research Day Poster Competition, October 2009.  
 Volunteered at Asian Youth Services serving underprivileged children in Chicago, 2003-2007.

- Mentored and tutored kids (grades 7-12) weekly in all subjects.
- Setup and maintained 10 Linux computers for daily use by the kids and the director.
- Coauthored a proposal to the Hewitt Associates Foundation for funding. The \$15,000 grant was awarded to Asian Youth Services in December 2006.

Organized lab tours of the Laboratory for Intelligent Mechanical Systems (LIMS).

- Robot operating buddies of Schaumburg, 2006; Bring you daughters to work day, 2005, 2006, & 2007; Cubscouts, 2005; Middle school students from surrounding schools, 2005.

Judge for the Tennessee State Science Olympiad competition in 2000 and 2001.
